

# Avian, Reptile, Fish and Non-Mammalian General Biochemistry Profile

## Tests Included:

Amylase, AST, Bile Acids, Calcium, Cholesterol, CK, GLDH, Glucose, Phosphate, Protein (Total), Uric Acid. Electrolytes Na, K and Cl can be added by request.

For small sample volumes, please indicate biochemistry tests required in order of preference.

Interpretation and PCV may be added for an additional fee.

Species:  
Avian, reptile,  
fish and other  
non-mammalian  
species

Specimen:  
Serum or  
plasma (0.4 ml  
minimum, or  
0.3 ml with no  
electrolytes)

Container:  
Lithium heparin  
(preferred) or  
Plain/gel tube

Collection  
Protocol:  
Standard  
venepuncture
